

Discover New Career Opportunities with New Found Gold!

We are Hiring Mining Engineer

At New Found Gold, we're on a mission to uncover the treasures hidden beneath the Earth's surface. As a leading gold exploration company, we combine cutting-edge technology with geological expertise to discover and develop world-class mineral resources. Our values—Leadership, Safety, Sustainability, Community and Courage—guide every step of our journey.

We are looking for an experienced Mining Engineer to support the continued development and implementation of open pit designs and mine plans necessary to ensure the safe execution of construction and operations of our Hammerdown Project near King's Point, Newfoundland and Labrador. Our Hammerdown Project is an open pit gold mining operation, which will supply run of mine feed to our operating Pine Cove mill, located approximately 100km from Hammerdown, near the town of Ming's Bight on the Baie Verte peninsula.

Reporting to the Chief Engineer, the Mining Engineer is responsible for developing, updating and maintaining short term mine plans to support Hammerdown Mine operations. Ensuring compliance with relevant best demonstrated practices and other regulatory requirements will be key to this role, along with a leading contribution to fostering a culture of risk management throughout construction and into operations.

Your Role in the Expedition:

As a Mining Engineer, you'll be part of a dynamic team. Your responsibilities will include:

- Complete drill and blast designs, waste dump designs, stockpile designs, and mine plan sequencing and scheduling, as required.
- Communicate Engineering deliverables to the Mine Operations team.
- Coordinate workflow between the Engineering, Geology, and Mine Operations teams.
- Track and report compliance KPI's.
- Complete month end reporting for the Mine Engineering team.
- Other related duties as required.

What You Bring to the Field:

- B.Sc. degree in Mining Engineering, Mining Technology diploma, or suitable technical skills.
- Minimum 4 years experience in an operating open pit mine.
- P.Eng. designation, or ability to apply for a P.Eng. designation, with PEGNL is preferred but not essential.
- Demonstrated ability to develop practical, safe, and cost effective solutions.
- Proficiency with mine planning computer software (Deswik, MS Office).
- Excellent communication skills (oral and written)
- Strong facilitation and presentation skills.

- Ability to positively interact with co-workers and team members.
- Able to work flexible hours as needed.

Benefits of this Opportunity:

We believe in rewarding our team for their hard work and dedication. Here's what you can expect:

- Competitive compensation and performance bonuses
- Comprehensive health, dental, and vision insurance
- Vacation and paid time off
- Professional development and training opportunities
- Travel allowances and field gear support
- Safety-first culture
- Adventure in some of the most geologically rich regions on Earth

The Terrain Ahead:

- Work Environment: Remote field sites, travel required, rugged terrain
- Employment Type: Full-time
- Location: King's Point, NL- Hammerdown Project.
- Posting Date: June 12, 2026
- Closing date: June 26, 2026

Ready to explore new horizons?

How to Apply:

Send us an email with your resume and cover letter to careers@newfoundgold.ca or fill out our contact form at this link <https://newfoundgold.ca/contact/careers-opportunities/>.

Please indicate the position in the subject line of your email or in the message with your resume.

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
