

Discover New Career Opportunities with New Found Gold! We are Hiring

Senior Environmental Scientist – Regulatory Permitting & Approvals

At New Found Gold, we're on a mission to uncover the treasures hidden beneath the Earth's surface. As an emerging gold producer, we combine cutting-edge technology with geological expertise to discover and develop world-class mining operations. Our values— Leadership, Safety, Sustainability, Community and Courage—guide every step of our journey.

New Found Gold is seeking a Senior Environmental Scientist – Regulatory Permitting & Approvals to lead and manage all environmental approvals, permits, and associated commitments across all New Found Gold sites. Reporting to the VP Sustainability, this role is accountable for the day-to-day management of environmental permitting activities, regulatory engagement, and tracking of permit conditions and commitments.

As Senior Environmental Scientist, you will be part of a dynamic team. Key Responsibilities include but are not limited to:

- Lead and manage all environmental permits, approvals, amendments, and renewals.
- Prepare, submit, track, and manage environmental permit applications.
- Establish and maintain strong working relationships with regulators and stakeholders.
- Review project documents to identify environmental approval requirements.
- Coordinate regulatory meetings and consultations.
- Track and manage all permit conditions, commitments, and compliance actions.
- Maintain permit trackers and repositories of submissions, comments, and responses.
- Direct preparation of environmental plans and reports required by approvals.
- Identify permitting risks and define mitigation measures.
- Other duties aligned with site health and safety leadership may be assigned as needed.

What You Bring to the Field:

- Bachelor's degree in Environmental Science, Environmental Engineering, Biology, or related field.
- 8–10+ years of experience in environmental permitting and regulatory approvals.
- Strong working knowledge of Newfoundland and Labrador mining regulatory frameworks.
- Demonstrated experience engaging with provincial and federal regulators.
- Excellent written, organizational, and stakeholder management skills.

Working Conditions

- Work will be a combination of office and fieldwork.
- Fieldwork may require working in extreme heat, cold, and inclement weather.
- Walking across uneven terrain is required frequently.

The Terrain Ahead:

- Work Environment: Mine and Processing sites, travel required, rugged terrain.
- Employment Type: Full-time.
- Schedule: 5*2
- Location: Remote with travel to New Found Gold project sites
- Posting Date: June 9, 2026
- Closing Date: June 16, 2026

Ready to explore new horizons?

How to Apply:
